Department of Physics
SEMINAR

Detection of Dark Matter

by

Prof. Henry Tsz-King WONG (王子敬教授)

Institute of Physics
Academia Sinica, Taiwan

Date: February 28, 2011 (Monday)

Time: 2:00 - 2:45 p.m.

Place: Rm. 311, Science Centre North Block, CUHK

ALL INTERESTED ARE WELCOME

Abstract

Understanding the properties of dark matter is one of the most important problems in Astrophysics, Cosmology, and particle physics. I will give an overview on dark matter search experiments, emphasizing on the on-going experiment in the China Deep Underground Laboratory in Sichuan, the first of its kind in China and currently the deepest underground facility in the world.
